About the geese: Our Embden geese spend 24/7 outside on coastal certified organic pasture where they eat a variety of forbs, native grasses and insects. They are protected from predators by our livestock guardian dogs and allowed to live as freely as possible in acres of land and never caged. Their diet is supplemented by a 16% protein, locally milled, certified organic feed. We take them to a USDA facility in the Central Vally of California where they are inspected and harvested, air chilled, vacuum packed and frozen.

Cost: \$22.49/lb.
